Letter No. 2080/I.T.L. dated the 8th Decm, 1944, from the Dir, Ete, Industries, stating that he has permitted the Gen. Manager, I.T.L, to meet the bill of M/S. Best & Co, Madras, for Rs 12,581-12-6/- for having supplied 7616 lbs of phenol and requesting approval to the circumstances stated in the action taken by him.

Letter No. 2818/I.T.L, dated the 31st Jan, 1945, from the same officer stating on the subject.

On 20th Nov. 1943 the order was placed with M/S. Best & Co, Madras, by the Gen. Manager, I.T.L, with the approval of the C.W.P.C. for the supply of 800 gallons of phenol. But only 7616 lbs of phenol was supplied by M/S. Best & Co. in Oct. 1944. As this material was required to meet the requirements of the Supply Dept of G. of. India, the Dir. Ete. Industries had permitted the Gen. Manager, to meet the bills of M/S. Best & Co, for Rs 12,581-12-6/- The Dir now has requested approval for the action taken by him.

2) The Dir, in his second letter dated the 31st Jan, 1945 has reported that the Gen. Manager of the I.T.L. has stated that due to inordinate delay in the supply of phenol, there is no use for it now.

Purchase of Phenol for the I.T.C.

B. VISWANATH, B.E.
DIRECTOR
ENGINEERING AND CHEMICAL INDUSTRIES

BANGALORE

Dated 8th December, 1944.

No. 2020/9.T.L.

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department, Public Offices,
Bangalore.

Sir,

I have the honour to state that on an offer received from Messrs. Best & Co. Ltd., Madras, during April 1943 that a firm in Australia was prepared to supply 800 gallons of phenol, the General Manager, Industrial and Testing Laboratory with the approval of the Government Director placed an order on 28th April 1943 for its supply. As this material was required for the preparation of disinfectant fluids and to meet the requirements of the Supply Department of the Government of India and as it was not procurable in India, needful action was also taken to get an import license on this behalf. Consequent on the considerable delay involved in getting an import permit for want of shipping space etc. this material was supplied only in October 1944.

The total quantity received is 7616 lbs. exclusive of railway freight and carting the total value of this quantity comes to Rs.12,581-12-6(Railway freight Rs.76-9-0 cart hire Rs.27-8-0).

I request you to kindly obtain the sanction of Government for this purchase. I may incidentally add that it is not possible to mention the circumstance under which this sanction was not applied for.

I have permitted the General Manager, Industrial and Testing Laboratory to meet the bill of Messrs. Best & Co., pending sanction of Government, as the amount involved is heavy and as on account of war conditions the transactions are generally on cash basis and also as

-2-

payment is of an inevitable nature. This action of mine may also be approved.

I have the honour to be,
Sir,
Your most obedient servant,

Director,
Engg. and Chemical Industries.
7.12

Draft G.O. approving the action taken by the Dir is submitted for consideration.

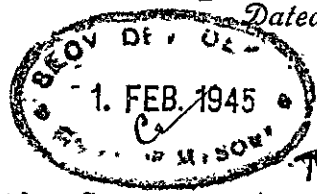
B. VISWANATH, B.E.
DIRECTOR
ENGINEERING AND CHEMICAL INDUSTRIES

C/o Govt. Soap Factory,
BANGALORE 4535

Dated 31st January 194 5



No. 2818/ITL

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department,
Public Offices,
Bangalore.

S i r,

In continuation of my letter No.2080/ITL dated 7th December 1944, requesting you kindly to obtain the sanction of Government for the purchase of 7,616 lbs. of phenol by the Industrial & Testing Laboratory through Messrs: Best & Co., I have the honour to state that the General Manager reports that on account of the inordinate delay involved in the supply of this article, there is no use for it now at the Industrial & Testing Laboratory. Further, I believe the order was placed by my predecessor in office mainly to safeguard the supply of bakelite moulding powder to the Government Electric Factory, of which there was a short supply at that time due to the non-availability of phenol which is one of the raw-materials. The General Manager, Industrial & Testing Laboratory, therefore, wrote to the General Manager, The Mysore Iron & Steel Works, Bhadravati, where this article is used largely for the manufacture of bakelite moulding powder to purchase it on the basis of actual cost plus 10 per cent to cover the charges towards storage, handling, dryage, etc., i.e., at Rs.1-15-0 per lb. ex-Laboratory. After some correspondence, the authorities of the Mysore Iron & Steel Works have intimated in their letter No.P.4966 dated 17th January 1945 that they would purchase the whole lot provided the supply is made at the Government of India rate for supply which is about Rs. 1-8-0 per lb. Exclusive of supervision charges, it has cost the Industrial & Testing Laboratory Rs. 1-10-6 a lb. So, if as intimated by The Mysore Iron & Steel Works, it is sold to them at Rs. 1-8-0, there will be a loss to the extent of about Rs. 1,190/= to the Industrial & Testing Laboratory on the transaction.

-2-

As the material is available at the Industrial & Testing Laboratory, Bangalore, and The Mysore Iron & Steel Works will have to buy this material in any case, and it is not known if this material is available now any where, and even if available, when supplies could be made, I request that Government may be pleased to instruct the Mysore Iron & Steel Works to take the entire quantity of phenol available at the Industrial & Testing Laboratory (7,616 lbs) at Rs. 1-10-6 per lb. which the actual cost of the material held in stock by the Industrial & Testing Laboratory.

As the matter is urgent, I request orders of Government may be obtained immediately and communicated to me.

I have the honour to be,
Sir,
Your most obedient servant,

Director,
Engg. & Chemical Industries.

Ref. No. P/____

6th February 1945.

9 FEB 194

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department,
BANGALORE.

Dear Sir,

Re: Purchase of 7,616 lbs. of Phenol offered by the Government Industrial & Testing Laboratory, Bangalore.

======

In inviting kind reference to letter No.2818/IT1 of the 31st ultimo addressed to Government by the Director, Engineering and Chemical Industries, Bangalore on the above noted subject, I beg to state that under instructions from the Director of Chemicals, Government of India, New Delhi, Messrs. Imperial Chemical Industri (India) Ltd., Bombay have now arranged for supply of 7 tons 1 Cwt. Phenol to the Mysore Iron & Steel Works at a rate of Re.1-0-0 per lb. f.o.r Bombay. Including railway freight and other charges, it is expected that the cost of phenol delivered at Bhadravati will not exceed Re.1-2-0 per lb.

The monthly consumption of Phenol at the Works is about 10/12 Cwts. and taking into account the present stocks and the above quantity released by the Government of India, it will last for about one and half years. In case the Works have to purchase 7,616 lbs. of Phenol available at the Government Industrial and Testing Laboratory at Rs.1-10-6 per lb. f.o.r Bangalore, the Works will incur a loss of nearly Rs.4,300/- on the transaction, besides accumulating heavy stocks at high rates, when the prices are likely to fall further.

Further, I wish to add that the entire production of Bakelite powder for which this phenol is purchased, is being sold to the Government Electric Factory, Bangalore at Rs.1-15-0 or Rs.2/- per lb. which is practically our cost price. The Government Electric Factory are complaining that our rate is high and that they can import better quality moulding powder at cheaper price. If the Works have to purchase Phenol at such a high rate of Re.1-10-6 per lb. the manufacture will become further uneconomical and the Government Electric Factory may prefer to buy

P.T.O

buy ~~these~~ imported materials.

by

I, therefore, submit that the maximum price that the Works can now afford to pay is Rs.1-2-0 per lb. f.o.r Bhadravati, though rupee one per lb. would be more reasonable to provide for a further anticipated fall in the price.

Yours faithfully,

D. Venkatappa

General Manager.

Tn-17-44-29685

OFFICE OF THE DIRECTOR
ENGINEERING & CHEMICAL INDUSTRIES

No. 3712/ITL
Encl. one.

Bangalore, Dated 9th May 1945.

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department,
Public Offices, Bangalore.

Sir,

Sub: Disposal of Phenol to Mysore Iron & Steel Works.

Ref: Your letter No.D.6502/I & C.17-44-26 dated 3rd March 1945.

I have the honour to state that under instructions from Mr. E. V. Ganapathi Iyer - the then Government Director - the Laboratory placed an order for phenol for the purpose stated in my letter No.2818/ITL dated 31st January 1945. At that time, the material was scarce in India and even the imports were very much restricted; the price accepted was also very favourable. But by the time the consignment arrived at the Laboratory, conditions improved and some quantities of phenol were imported from Australia and offered for sale at slightly lower rates.

The Laboratory has, however, to clear the present stocks. In this connection, the General Manager, Industrial & Testing Laboratory, reports that the Government of India are releasing the material to manufacturers at Rs. 2,720/= per ton, f.o.r. Bombay or Calcutta (vide letter dated 21st April 1945 from the Indian Chemical Manufacturers' Association, enclosed herewith) and that the stocks held by the

Laboratory may, therefore, be offered to the Mysore Iron & Steel Works at this same rate.

I agree with the suggestion made by the General Manager. The offer is quite reasonable and fair to both the Laboratory and the Iron Works. I, therefore, request you kindly to obtain sanction of Government to transfer the stocks from the Laboratory to the Iron Works at the rate of Rs. 2,720/= per ton.

The matter may kindly be treated as urgent.

I have the honour to be,
Sir,
Your most obedient servant,

Director,
Engg.& Chemical Industries.

Copy of letter dated 21st April, 1945, from Messrs. Indian Chemical Manufactuers Association, Calcutta, to all Members of the Association.

20th June 1945.

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department,
Bangalore.

Dear Sir,

Re: Purchase of Phenol offered by the Government Industrial & Testing Laboratory, Bangalore.
Ref: Our letter No.P/5464 of 6th February 1945.

With reference to your letter No.D/8588(2) of the 13th instant, enquiring whether the Iron Works are agreeable to the rate of Rs. 2,720/- per ton for purchase of 7,616 lbs. of Phenol offered by the Government Industrial & Testing Laboratory, I write to state that a stock of about 8 tons of Phenol is now held by the Iron & Steel Works which would last approximately 15 to 16 months, at the present rate of consumption. The last supply of Phenol of about 7 tons from M/s. Imperial Chemical Industries, Bombay was got at Re.1/- per lb. f.o.r Bombay or Rs.1-0-10 per lb. f.o.r Bhadravati. The next consignment is likely to be got at a much cheaper price.

Under the circumstances, it is not desirable for the Works to purchase material offered by the Industrial & Testing Laboratory at Rs.1-4-0 per lb., particularly as the price of both Phenol and moulding powder is likely to fall further in the near future and the Government Electric Factory is pressing for a reduction in our price of Moulding Powder to them.

Yours faithfully,

General Manager.

Sir,

Ref: Letter No.D.182/I & C 17-44-31, dated 7th July '45.

Sub: Disposal of phenol to M. I. S. W.

Referring to the copy of the letter from the General Manager, Mysore Iron & Steel Works, Bhadravati, I note that the Iron Works have a large stock of phenol to last for 15 months and that they are not inclined to purchase the material from Industrial and Testing Laboratory at Rs.1-4-0 a lb.

The actual cost of the material to the Industrial and Testing Laboratory is, as intimated in my letter No.2818/I.T.L. dated 31-1-1945, Rs.1-10-6 a lb. Any sale at less than this price would involve a loss to the laboratory. But in view of the present market conditions, the laboratory offered the material at Rs.1-4-0 a lb. or Rs.2,720/- per ton, this being the rate at which the Government of India released carbolic acid to Indian manufacturers. This I considered a reasonable offer. This, however, is not acceptable to the Iron Works, who have indicated in their letter a rate of Rs.1-0-0 a lb. which would involve a loss of about Rs.5,000/- to the laboratory and has to be written off. Beyond this, I do not think there could be any other "agreed proposals".

Meanwhile, the General Manager, I.T.L. has been in touch with other manufacturing firms requiring phenol and he will, after collecting the information, submit

p.t.o

his proposal if any suitable offer is forthcoming.

I have the honour to be,
Sir,
Your most obedient servant,

Director of Engineering
& Chemical Industries.

OFFICE OF THE DIRECTOR
ENGINEERING & CHEMICAL INDUSTRIES

No.3451/I.T.L. Bangalore, Dated 13th November 1945.

2945
9tc. 17-44-35

The Secretary to Government,
Development Department,
BANGALORE.

Sir,

Disposal of Phenol to M.I.S.W.
Your letter No.2471/I & C. dated 19-10-45.

With reference to the above, the General Manager, Industrial & Testing Laboratory, reports that no suitable offers have been received by him for the purchase of Phenol by other manufacturers or firms in India, and that the stocks may, therefore, be disposed off to the Mysore Iron & Steel Works, Bhadravati.

I have the honour to request you kindly to obtain early orders of Government to transfer the stocks of Phenol to Mysore Iron & Steel Works at Re.1-0-0 per lb. (or any price that the General Manager, Mysore Iron and Steel Works, may consider reasonable) and to write off the difference in the value.

I have the honour to be,
Sir,
Your most obedient servant,

Director,
Engineering & Chemical Industries.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS
THE MAHARAJA OF MYSORE

Read.-

Correspondence ending with letter No.3451/ITL, dated 13-11-45, from t he Director of Engineering & Chemical Industries, stating that the General Manager of the Industrial & Testing Laboratory, with the approval of the late Government Director of Industrial Concerns, had placed an order on 28-4-43 with M/s. Best & Co., Ltd., Madras, for the supply of 800 gallons of Phenol, as the material was required for the preparation of disinfectant fluids and for meeting the requirments of the Supply Department of Government of India, that only a quantity of 7616 lbs. of Phenol at a total value of Rs.12,581-12-6 was supplied in Oct. 1944, that on account of the inordinate delay involved in the supply of this article, there is no use for it now at the Industrial & Testing Laboratory, and in the circumstances explained above requesting sanction of Government,

(i) for the transfer of 7616 lbs. of Phenol from the stocks of the Industrial & Testing Laboratory to the Mysore Iron & Steel Works, Bhadravathi,

(ii) for the write off of the difference in value which may be about Rs.5,000/-.

2. Correspondence ending with letter No.P.8981 dated 20-6-45 from the General Manager, Mysore Iron & Steel Works, Bhadravathi, in the matter.

ORDER NO. D 5274-6 Dte.

Bangalore, dated 15-Jan. 1946.

Sanction is accorded to the transfer of 7616 lbs. of Phenol from the Industrial Testing Laboratory to the Mysore Iron & Steel Works, Bhadravathi, at Re.1/- per lb. F.O.R. Bhadravathi.

Sir,

In continuation of G.O. No 5274-6 dated 15/1 according sanction to the transfer of 7616 lbs of Phenol to the H.P.S.W. I am directed to observe that it is not clear why the material was purchased and at a high rate that too when there was no need for it. I am ~~hereby~~ to request you to furnish the explanation of the officer concerned for his purchase and submit the orders of Govt.

I have etc.
